HOW DO I LOG IN TO HBO MAX WITH MY CURRENT HBO GO ACCOUNT?

01

If you have an active **HBO GO** subscription through a service provider, you must download the **HBO Max** app on your device or log on to **HBOMax.com** from your computer.

02

In your first login you must choose the option "**Enter with your Service Provider**", choose your country and service provider and follow the steps indicated by the system. Remember that in this first login you will have to use the credentials you use with your service provider and, once authenticated, the system will ask you for your information First Name, Last Name, e-mail and create a password.

HOW TO SELL?

HBO Max offers a unique space to live stories to the fullest being the host of iconic brands such as HBO, DC, Cartoon Network and Warner Bros. Content that generates excitement and that can be enjoyed by all members of the family.

You choose the content and the screen: devices such as TV, Computer, Video Game Console, Smartphones and Tablets.

Download your favorite titles and enjoy them on your devices wherever you are.

HBO Max offers the option, in most cases, to enjoy the content in original audio, English, Spanish and Portuguese. Also, in most cases it is possible to add subtitles in any of the three languages.

The standard plan will allow the HBO Max experience at its maximum splendor, offering families access to 3 simultaneous users, 5 personalized profiles, content and video downloads, which may be available in HD and 4K high definition.

If you have an HBO GO subscription directly with HBO or through an authorized third party, you will have access to HBO Max starting June 29.
